Let's Start!

Everyone likes some type of music!

Learning Outcome

Identify and describe taste and style in music and fashion through a wider range of language in both work and social contexts.

Can Do Statements

- I can write about socializing and music.
- I can make comparisons using *as ... as* and *not as*.
- I can agree or disagree with *so* or *neither*.

Ask your partner:

- How often do you go to concerts?
- What kind of music do you listen to?
- Do your friends like the same type of music or a different type?

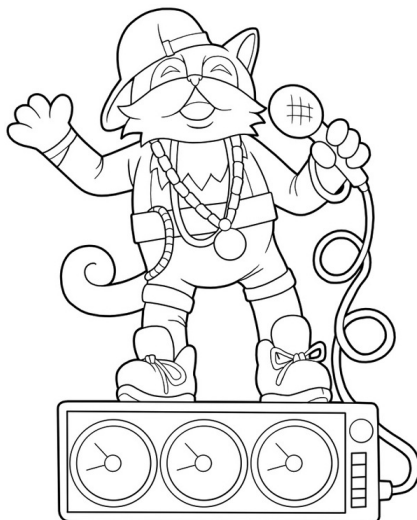

Let's Explore!

Vanessa didn't enjoy the first few **sets***

* A "set" at a musical venue is a group of songs played before the band takes a break.

Instructions: Read the text aloud.

Sally: My feet are still killing me from walking in those shoes!
Vanessa: It serves you right. We went to a festival, not to a night club.
Sally: I didn't think it was going to go on as long as it did.
Vanessa: I was certainly happy it wasn't as deafening as the one last year.
Sally: So was I. My ears rang for days after that one!
Vanessa: I didn't enjoy the first few sets. I'm not fond of rap.
Sally: Neither am I. I'm more of a rock 'n' roll girl.
Vanessa: I am too sometimes. I didn't like the neo-classical numbers either.
Sally: Neither did I. I was surprised the bands weren't as interesting as the bands that played last year.
Vanessa: So was I. In fact, I was a little disappointed.
Sally: Me too. I'm not sure I'll go back again next year.
Vanessa: Me neither. I can't remember when I was as disappointed in a festival as I was this time.
Sally: Neither can I. The arts area was just as well laid out as it was last time. The Music Man parody was almost as slick as past musical productions.
Vanessa: The cafe tent with buskers were fun. I loved talking to some of the other festival goers over coffee.
Sally: I liked browsing the craft tents too.
Vanessa: Let's go back to mine and relax. Maybe watch a movie ...
Sally: Sounds heavenly!

Let's Practice!

Learning Points

Making Comparisons

We use *as* + adjective/adverb + *as* to make comparisons when the things we are comparing are equal in some way:

*This leather jacket is **as soft as** a sweater!*

We use *not as ... as* to make comparisons between things which aren't equal:

*This leather jacket isn't **as expensive as** that one.*

Examples:

- *I didn't think it was going to go on **as long as** it did.*
- *It wasn't **as deafening as** the one last year.*
- *The bands **weren't as interesting as** the bands that played last year.*
- *I can't remember when I was **as disappointed in a festival as** I was this time.*
- *The arts area was **just as well laid out as** it was last time.*
- *The Music Man parody was **almost as slick as** past musical productions.*

Responses with *So* and *Neither*

We use *so* and *neither* for positive and negative agreement.

So is used to show agreement with positive statements.

Sometimes we also use *too* to express the same thing.

Example:

Amanda: *I like this dress!*

Janet: *So do I./I do too.*

Neither is used to show agreement with negative statements.

Sometimes we also use *either* to express the same thing.

Example:

Amanda:

I don't think this fits well.

Janet:

Neither do I. (neither is a negative word)

I don't either. (either is used with the negative)

When you use *so* and *neither*, the auxiliary needs to agree with the verb tense in the original statement.

A more colloquial form of positive agreement is *Me too*.

Learning Points

A more colloquial form of negative agreement is *Me neither*.
